

Overview Exchange Process Student Services

Below you will find a schematic overview of the exchange process of Student Services.

	WHEN	WHAT
STEP 1	September – November	Orientation Visit one of the study abroad presentations to get information about the exchange possibilities.
STEP 2	1 December	Deadline for <i>first</i> application process: UU. Applications for all exchange programmes. Apply through Osiris.
	1 December- beginning of February	Review and selection by UU of submitted applications. At the beginning of February you will receive an email about the outcome of your application.
STEP 3	Beginning of February – mid-May	<i>Second</i> application process: <i>the host university.</i> The process differs per partner university. The application deadlines vary per university and per semester as well. The host university makes the final decision on the actual acceptance of an exchange application. It usually takes 1–3 months (depending on the host university) before you receive a decision notification.
STEP 4	April – May	Pre-departure meetings for all nominated students. Next to receiving practical information about for instance finance and visa, you will also meet other students going to the same partner university.
	From the moment you are accepted by the host university	Start arranging your trip: ticket, visa, vaccinations, housing, insurances etcetera...
STEP 5		Ready for take-off!

End of February - September	Students who did not meet the deadline can apply for the remaining places. Places that are not filled up will be put on a 'remaining places list' on our website from the end of February.
