Section 5 – Testing

Art. 5.1 – General
1. During the course, the student will be tested for academic schooling and the extent to which the student has sufficiently achieved the learning objectives set.
2. The University Course Catalogue describes the achievements the student must make to pass the course, and the criteria on which the student is assessed.
3. Each course has various testing moments. At the latest halfway through the course there is a moment where the teacher assesses the student’s progress and informs him herewith.
4. The testing of the student will be completed by the end of the course.
5. The testing procedure is described in the Regulations of the Board of Examiners.

Art. 5.2 – Board of Examiners
1. For each study programme or group of programmes, the Dean will establish a Board of Examiners and will put in place sufficient guarantees that this Board of Examiners will work in an independent and expert manner.
2. The Dean will appoint the chair and the members of the Board of Examiners for a period of three years based on their expertise in the field of the programme(s) in question or the field of examining, whereby:
   - at least one member comes from outside the study programme or group of study programmes concerned, and
   - at least one member is a lecturer in the study programme or group of study programmes concerned.

Re-appointments are possible. Before making such an appointment, the Dean will consult the members of the Board of Examiners concerned.
3. Persons holding a management position with financial responsibility or (partial) administrative responsibility for a programme of study may not be appointed as a member or chair of the Board of Examiners. This will in any event include: the Dean, vice-Dean, the Director/Head/Manager of a department¹, a member of a departmental management/administrative team, the Director/Head/Manager of a section, any member of a management or administration team, a member/chair of the Board of Studies of the Graduate School or the Undergraduate School and the Education Director.
4. Membership of the Board of Examiners will terminate upon expiry of the period of appointment. In addition, the Dean will discharge the chair and the members from their duties at their request. The chair and the members will also be dismissed by the Dean if they no longer fulfil the requirements stated in paragraphs 2 or 3 of this article. In addition, the Dean may dismiss the chair and the members if they fail to perform their statutory duties adequately.
5. The Dean will make the composition of the Board(s) of Examiners known to the students and teaching staff.
6. The Board of Examiners may include more detailed rules on its tasks and powers in the Board of Examiners Regulations, including provisions on the appointment of examiners.

Art. 5.3 – Marks
1. Marks are awarded on a scale of 1 to 10. The final assessment of a course is either pass or fail, expressed in numbers: 6 or higher and 5 or lower, respectively. The number 5 is not provided with decimals. The Board of Examiners Regulations hold further provisions with respect to the assessment of a course and the rounding off of marks.
2. Alphanumeric results are awarded in the following cases:
   - a student who is registered for a course and has not participated in any or in all the test modules will be given an NC (Not Completed);
   - if the student has complied with a course, but has not received a mark for it, he/she may be given a P (Pass) as the result
   - if the student has not completed a course but does not receive a mark for it, the student can be given an F (Fail) as the result
   - a student who has been granted exemption by the Board of Examiners will be given an EX (Exemption);
   - if the Board of Examiners establishes fraud, the student may be given an FR (Fraud) as the result.

¹ In the Department of Law this is the Department chair.
**Art. 5.4 – Force majeure, catch-up test**

1. A student who is unable or was unable to participate in a maximum of one module test per course due to demonstrable circumstances outside of his or her control may sit a catch-up test, if he or she notified the Student Information Desk Law (Studiepunt Rechten) prior to taking the test.\(^2\) If the latter was not possible, the student shall inform of the circumstances outside of his or her control as soon as possible. This student then is no longer eligible to take a make-up test in accordance with Article 5.5.

2. The course coordinator determines the form of the catch-up test and determines whether the student may participate in the catch-up test.

3. The catch-up test is a test in which the entire material for the course can be examined.

**Art. 5.5 – Make-up: additional or substitute test**

1. If a student has fulfilled all obligations to perform to the best of his or her ability during the course, as long as the final (failing) mark is at least a 4.0, he or she will be given a once-only opportunity to sit an additional or a substitute test.

2. A student does not qualify for an additional or substitute test if he or she has been awarded a pass.

3. For a course with module tests the provisions on make-up as referred to in paragraphs 4 and 5 of this article apply\(^1\). Students who have not passed the course Graduation project, must take the course Graduation Project again in a following teaching period.

4. The course coordinator determines the form of the make-up test and, subject to the provisions of paragraph 1, determines whether the student may take the make-up test.

5. The make-up test is an individual test, in which the entire material for the course can be examined. The make-up test is graded with a ‘satisfactory’ or ‘unsatisfactory’ grade. If the make-up test is ‘satisfactory’, the final grade for the course is a 6. If the make-up test is ‘unsatisfactory’, then the original final grade remains unaltered.

6. No catch-up opportunity is provided for students who have not participated in the make-up test, unless the failure to provide an individual testing opportunity would result in a ‘special case of manifest unfairness’. Requests for an individual testing opportunity on this ground must be submitted to the Board of Examiners as soon as possible, with evidence.

7.

**Art. 5.6 – Type of test**

1. Testing within a course is done in the manner stated in the University Course Catalogue.

2. At a student’s request, the Board of Examiners may allow a test to be administered otherwise than as stipulated in the first paragraph.

3. Testing within a course, except for the course Graduation project, is done by means of at least two module tests.

4. For all courses the requirement applies that, in order to obtain a final grade, the student must have received an assessment for all mandatory module tests.

5. A centrally held module test in principle lasts two hours. At the request of the course coordinator, the Education Director may grant permission to extend the duration of the test.

**Art. 5.7 – Oral testing**

1. Oral tests will be administered in public, unless the Board of Examiners or the examiner in question decides otherwise in a special case, or the student objects to this.

2. In principle, an oral test is administered by two examiners.

**Art. 5.9 – Time limit for marking tests**

1. The examiner must determine the mark as quickly as possible after administering an oral test, provide the student if possible with a written statement of the mark and submit the relevant data to the administrative office of the Faculty.

2. The examiner must mark a written test, or a test held in another way within 10 working days of the date on which it was administered and supply the administration of the department with the information necessary to issue the student written or electronic proof of his or her mark.

3. The written statement of the mark achieved must inform the student of the right of inspection referred to in Article 5.11 and of the possibility to appeal to the Examinations Appeals Board.

2 A digital form is available to this end.

1 If a course has only one test, the resit provisions of the EER 2017/2018 apply.

*Education and Examination Regulations of the Bachelor's Degree Programme in Law of Utrecht University 2017/2018*
Art. 5.10 – Period of validity
1. The term of validity of courses passed is unlimited. Contrary to this, the Board of Examiners may, for a course that was passed more than six years ago, impose (a) test(s) for the purpose of updating knowledge, understanding and/or skills, if the knowledge, understanding and/or skills acquired in the course have become demonstratively out of date.
2. Partial tests and assignments which were passed will lose their validity if the course within which they were taken was not passed.

Art. 5.11 – Right of inspection
1. For thirty days after the announcement of the result of a written test in OSIRIS Online, the student will be allowed to inspect his or her marked work upon request and in a manner determined by the course coordinator.
2. During the period referred to in the first paragraph, any interested party may inspect the questions and assignments of the test concerned, as well as, if possible, the standards on which the mark was based.
3. The course coordinator can determine that the test questions and other assignments shall be collected again after the taking of the test or the inspection of the graded work.
4. The Board of Examiners Regulations may contain more detailed provisions on the right of inspection and on subsequent discussion.

Art. 5.12 – Retention time for tests
1. The assignments, their completion by the student and the work assessed in the written tests will be kept (in paper or digital form) for a period of two years following the assessment.
2. The graduation work and the assessment of this will be kept (in paper or digital form) for a period of seven years after this assessment.

Art. 5.14 – Fraud and plagiarism
1. Fraud and plagiarism are defined as an action or failure to act on the part of a student, whereby a correct assessment of his or her knowledge, insight and skills is made impossible, in full or in part.
   Fraud includes:
   - cheating during tests. The person offering the opportunity to cheat is an accessory to fraud;
   - being in possession of (i.e. having/carrying) tools and resources during tests, such as pre-programmed calculators, mobile phones, smart watches, smart glasses, books, course readers, notes, etc., consultation of which is not explicitly permitted. The Board of Examiners may include in the Board of Examiners Regulations more detailed rules on tools and resources permitted during tests and on the acceptability of notes in legislation volumes and case law volumes that may be consulted during the test;
   - having others carry out all or part of an assignment and passing this off as own work;
   - gaining access to questions, assignments or answers of the test prior to the date or time that the test in question takes place;
   - making up survey or interview answers or research data;
   - wrongly signing or having another sign the attendance lists (student A signs for student B who is not present; both students commit fraud).
   Plagiarism is defined as including data or sections of text from others or from one’s own earlier work in a graduation paper or other paper without quoting the source. Plagiarism includes the following:
   - cutting and pasting text from digital sources such as encyclopaedias and digital publications without using quotation marks and referring to the source;
   - cutting and pasting text from the internet without using quotation marks and referring to the source;
   - using excerpts from printed material such as books, magazines, other publications and encyclopaedias without using quotation marks and referring to the source;
   - using a translation of the abovementioned texts without using quotation marks and referring to the source;
   - paraphrasing of the abovementioned texts without giving a (clear) reference: paraphrasing must be marked as such (by explicitly linking the text with the original author, either in text or a footnote), whereby the impression is not created that the ideas expressed are those of the student;
- using visual, audio or test material from others without referring to the source and presenting this as own work;
- resubmission of the student’s own earlier work without source references, and allowing this to pass for work originally produced for the purpose of the course, unless this is expressly permitted in the course or by the lecturer;
- using the work of other students and passing this off as own work. If this happens with the permission of the other student, the latter is also guilty of being an accessory to plagiarism;
- if, in a joint paper, one of the authors commits plagiarism, the other authors are also guilty of being an accessory to plagiarism, if they could or should have known that the other was committing plagiarism;
- submitting papers obtained from a commercial institution (such as an internet site offering excerpts or papers) or having such written by someone else, whether or not in return for payment.

2. a. In all cases in which fraud or plagiarism is found or suspected, the examiner will inform the student and the Board of Examiners of this in writing.
   b. The Board of Examiners will give the student the opportunity:
      - to respond to that in writing;
      - to be heard.

3. The Board of Examiners will determine whether fraud or plagiarism has occurred and will inform the student of its decision in writing and of the sanctions in accordance with the stipulations of the fourth paragraph, stating the possibility of appeal to the Examination Appeals Board.

4. Fraud and plagiarism will be punished by the Board of Examiners as follows:
   a. In any event:
      - invalidation of the paper or the test submitted;
      - a reprimand, a note of which will be made in OSIRIS.
   b. In addition, depending on the nature and scale of the fraud or plagiarism and on the student’s phase of study, one or more of the following sanctions:
      - removal from the course;
      - no longer being eligible for a positive degree classification (cum laude) as referred to in Article 6.2;
      - exclusion from participation in tests or other forms of testing belonging to the educational component concerned for the current academic year, or for a period of 12 months;
      - complete exclusion from participation in all tests or other forms of testing for a period of 12 months.
   c. If the student has already received an earlier reprimand:
      - complete exclusion from participation in all tests or other forms of testing for a period of 12 months.
   d. In the case of extremely serious and/or repeated fraud or plagiarism, the Board of Examiners may recommend that the Executive Board permanently terminate the concerned student’s registration for the programme.

5. If the Board of Examiners determines that there has been widespread or organised fraud, on a scale which would affect the test results in their entirety, the Board of Examiners will decide without delay that the test concerned is invalid and that all the participants must resit the whole test at short notice. The Board of Examiners will set the date on which the test must be retaken. This date will be no later than two weeks after the fraud was established, so that the participants can still benefit from their preparatory work for the test.

**Art. 5.15 – Plagiarism control**

1. With respect to the control of plagiarism in assignments written by the student, such as papers, the thesis etc., electronic submission thereof, with or without the use of plagiarism detectors, may be made obligatory by the examiner of the course. If a student does not submit his or her work electronically or does not submit it on time, the piece may be graded with an 'unsatisfactory' grade.
2. By submitting a piece of work, the student is providing permission, in the broadest sense of the word, for a plagiarism control via a plagiarism detection system of the department’s choosing, or uploading of the piece in databases, insofar as this is necessary for future plagiarism controls.
3. If in a given course, it is determined to publish a piece, the student retains the right to refuse to have the work used publicly, except with respect to the plagiarism controls as outlined in

*Education and Examination Regulations of the Bachelor’s Degree Programme in Law of Utrecht University 2017/2018*

Art. 7.2 – Student counselling
1. Section 8 – Transitional and final provisions

Art. 8.4 – Safety-net scheme
In those cases, not provided for by this clause, or not provided for sufficiently clearly, or which clearly lead to an unreasonable outcome, a decision will be taken by or on behalf of the Dean, after the Board of Examiners has expressed its view. If based on the Act, the decision falls within the competence of the Board of Examiners, the Dean will send the request to the Board of Examiners for it to handle.

Art. 8.5 – Amendments
1. The Dean will lay down amendments to these Regulations in a separate resolution, after hearing the Programme Committee and after consulting the Faculty Council.
2. An amendment to these Regulations does not apply to the current academic year, unless it is reasonable to assume that it will not harm the interests of the student.
3. Furthermore, an amendment may not have an adverse effect for students on any other decision taken pursuant to these Regulations by the Board of Examiners with respect to a student.

Art. 8.6 – Publication
The Dean will provide for the publication of these Regulations, as well as any amendments, on the Internet.
