

CursusPlanner ('course planner') manual of the Faculty of Social and Behavioural Sciences – electives options for 1-year Master's programmes

Version 2.0 – 24-08-2020

The course planner is a tool you can use to search for courses to occupy the free electives of your Master's programme. The course planner simply and transparently reflects whether electives in other Faculty of Social and Behavioural Sciences Master's programmes fit into your future schedule of period 2. You can also store several potential elective choices in your planner. In this way you are able to compare the schedules with one another and check for any overlap.

The course planner works according to a scheme as follows:

Please note: you cannot use this tool to register for a course!

You will always have to register for courses via Osiris (student) (<https://uu.nl/osirisstudent>).

The course planner consists of four components: The course planner, 'My planning' ('Mijn planning'), 'My schedule' ('Mijn rooster'), and 'Backpack' (shopping cart). These components are explained step by step below.

1. Logging in.....	2
2. Searching with the course planner.....	2
21 Set search filters.....	3
22 Shop: Add Subjects to your Backpack.....	3
3. Managing your backpack.....	3
3.1 Where can I find my backpack?.....	3
4. My schedule	4
5. How to register for a course.....	5

1. Logging in

The course planner is a handy tool for choosing one elective course during your 1-year Master's programme, while taking account of the planning for mandatory courses. You can only use the course planner by logging in. You can only choose courses on a masters' level (M). This manual explains how to use the course planner.

1. Open a web browser (preferably Chrome) and go to <https://cursusplanner.uu.nl>
2. Click on 'Log in' ('Inloggen') in the upper right corner.
3. Log in using your UU e-mail address and associated password.
4. If your examination (i.e. Master's study) programme is not yet known, the following message will appear at the top of the screen:

If you see this message, please [contact the STIP](#).

2. Searching with the course planner

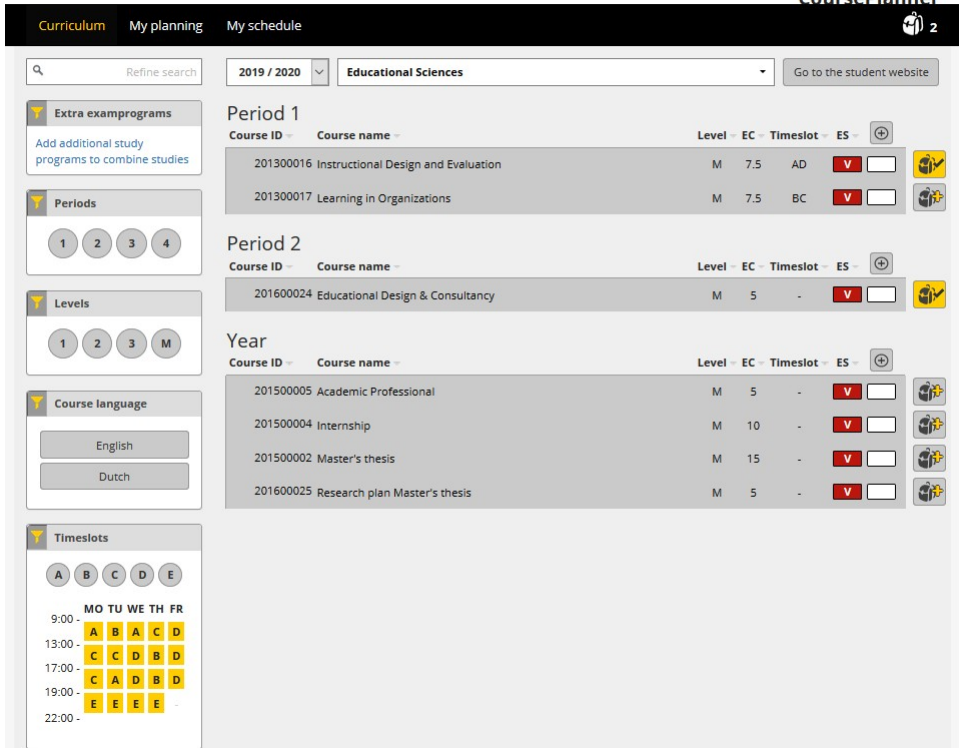

Registration deadline:

Wednesday 28 October from 6:00 p.m. – Sunday 1 November until 23.59 p.m.

After logging in, you will automatically see the main screen of the course planner - including your mandatory course names - if your examination programme is set up correctly. This screen functions the same way as shopping sites: on the left side you have filter options to select the content in the middle section of the page.

You can choose a maximum of one course, but you can search for courses both inside and outside your examination programme (i.e. *all* elective courses offered by our Faculty of Social and Behavioural Sciences). By clicking on the course name backpack icon, you can compare the various courses under the heading "My schedule".

The course planner *search* screen looks like this:

Below is a brief description of how the search screen works:

2.1 Set search filters.

In addition to selecting your own examination programme, choose “Add additional study programs to combine studies”.

Then choose Master’s Elective Courses block 2; this overview includes all the electives offered by the Faculty of Social and Behavioural Sciences itself.

Set your search filter Period on block 2 (the registration period from 28 October at 6:00 p.m. to 1 November only applies to the electives available in block 2).

2.2 Shop: Add Subjects to your Backpack.

In the search results, you will always see a backpack on the right of the course code/name.

- Click on the name of a course to view the course description.
- Click 1x on the backpack to add the course to your backpack. If you are successful, the backpack next to the course code/name will turn yellow and the number next to your backpack (upper right) will increase by 1:

Please note: Once a course is added to your backpack, it will remain added regardless of other selections you make in the search screen. Below we will discuss how to manage your backpack.

3. Managing your backpack

In your backpack you will see an overview of the courses you have selected. You can also save your backpack and continue at a later time.

3.1 Where can I find my backpack?

You will see the icon for your backpack in the upper right of the main screen of your course planner:

Use the **"Overview" (Overzicht)** button to see which courses you have added to your backpack. You also have the option of emailing your selection to yourself, so you can then forward it to your programme supervisor or a fellow student:

The Backpack "Overview" screen:

The screenshot shows the 'CoursePlanner' interface for Universiteit Utrecht. The user is logged in as 'Teststudent FSW, T. (T.)'. The interface includes a navigation menu with 'Curriculum', 'My planning', and 'My schedule'. The 'Personal information' section displays the following details:

- Name: Teststudent FSW, T. (T.)
- Solis ID: f010120
- EC: 20.00
- Items: 4

The main area shows a table of courses in the backpack:

Course ID	Level	Course name	EC	Timeslot
201600018	M	Care Policy and Organisations	5.00	-
201500473	M	Forensic psychopathology in children and adolescents	5.00	D
201600017	M	Internet Social Media and Networks	5.00	-
201500816	M	Loss and psychotrauma	5.00	A C E

To delete subjects from your backpack, click in the overview on the red cross to the left of the course code, or change the yellow backpack icon from yellow to white in the search results course planner.

4. My schedule

This page displays the schedule of the courses in your backpack + the mandatory and track courses for which you are already registered. All the lectures/ seminar/small-group sessions are shown in a list per week, with a schematic overview of the week on the right. If red blocks appear in the week's schedule, this means it includes overlapping lectures. To avoid such overlaps, you can, for example, choose to do the small-group session in another group¹; you can change the group numbers on the left side of the page. You can also turn courses on and off to see which fits best in your schedule.

Please note: in My Timetable (<https://mytimetable.uu.nl/schedule>) you'll see the schedules of the courses you are registered for. You can also add courses.

¹ You cannot change the group numbers of the mandatory courses and the track courses for which you are already registered, nor can you submit a request to do so.

Curriculum My planning My schedule  4

Attention: some of the selected courses have overlapping schedules.

5. How to register for a course

You must register for the course in Osiris Student.

Click (<https://uu.nl/osirisstudent>) to go to Osiris Student. Log in using your Solis-id and password.

Osiris is secured by tw0-factor-authentication, this means you have to log in with an extra verification code. More information can be found in this manual: [Two-factor authentication: FAQ](#).

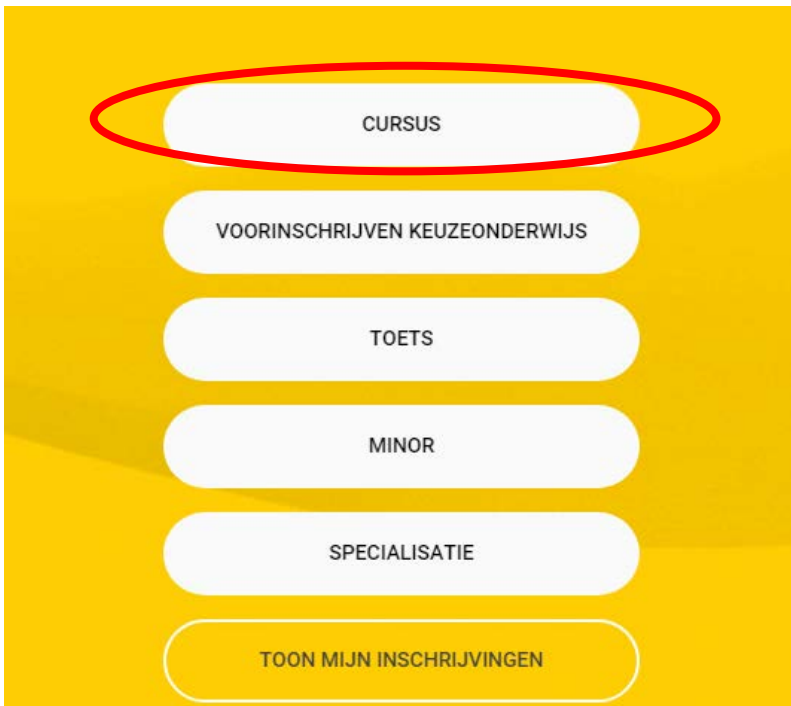

When you are logged in, select the menu with the button in the top left and go to “Enrol”.

You will see the following options:

- Course (Dutch: Cursus)
- Pre-enrolment elective education (Dutch: Voorinschrijven keuzeonderwijs)
- Test (Dutch: Toets)
- Minor
- Specialisation (Dutch: Specialisatie)

Choose 'Course' / 'Cursus'

You will now see a window where you can search for courses. Not all courses will be open for enrolment. Courses that are open for enrolment will have a yellow dot and arrow in front of them.

Set your filter settings in the bar on the left. Be sure to select 'Only open for course enrolment' (Dutch: 'Alleen open voor cursusunschrijving') and the Faculty of social sciences.

- Developmental neuropsychology (201800818)**
2020 Blok 2, D
Faculteit: Sociale Wetenschappen
Coördinerend onderdeel: Clinical Child, Family and Education Studies
Punten: 5 ECTS
Categorie: Master
Cursustype: Cursorisch onderwijs
Voertaal: Engels
Opmerking (cursus): Bachelorstudenten kunnen zich niet inschrijven voor dit masteronderdeel.

Click on the course you want to enrol in to get to the next window. Here you select your group or course module preference. Choose the group number that best fits with your schedule.

Click on 'Edit' (Dutch: 'Wijzigen') to return to the course overview.

You may receive notification that the course module (or the small-group session) is already full. If so, choose another course module / group session and make sure that there is no overlap! If you still choose a course or small-group session that has overlap with your other courses, you cannot take those classes! There is no check or adaption of these overlaps by STIP.

After choosing your group number, click on the arrow in the yellow dot (→) to go to the confirmation page.

Click the yellow 'Confirm enrolment' button (Dutch: 'Bevestig inschrijving') to confirm.
