

Frequently Asked Questions minor Applied Data Science

What are the timeslots for the courses?

As the rooms are not yet confirmed, the timeslots are not yet definite for the minor courses. However, we can provide you with some more information for the following courses:

- Basis van Onderzoek en Statistiek (only for students who do not fulfill the entrance requirements of the minor): The lectures will be on Monday morning 9 – 10.45 and on Wednesday morning 11-12.45 or 13.15 – 15.00. The instruction lectures will be on Monday 13.15 – 15.00 or on Wednesday 9 to 10.45. The labs will be on Wednesday 17.15 – 19.00.
- Fundamental techniques in data with R: The rooms for the lecture are confirmed, and will be in timeslot C3 (Mondays from 17.15 – 19u). The rooms for the labs are not yet confirmed, but will most likely be on Thursday mornings, with a slight chance of being on Thursday evening instead.
- Applied data Science and visualization: The lectures will be in timeslot B (Tuesday morning or Thursday afternoon / evening). The labs will be either Thursday evening or Friday afternoon.

For the course Programming with data, we have no information yet. If you would like to know the (most probable) timeslot for this course, we advise you to contact the course coordinator, see the website of the minor.

I am not able to register

- If it concerns an optional course or the course programming with data, please check the enrolment period. As this is an interdisciplinary minor, the courses are given by various faculties. The enrolment period differ over the faculties. For example, the course Fundamental techniques in data with R is given in period 2, and you can enroll from June 3rd to June 30th. The optional course Kunstmatige intelligentie is also given in period 2, but as the course is organized by the Beta Faculty, the enrollment period is from September 16th to September 29th.
- You can double check if you used the correct course code. The course codes can be found in the Osiris course catalog, the names of the courses on the minor website are linked to this.
- If these options do not solve your problem, please contact STIP:
<https://students.uu.nl/en/fss/student-information-point-stip>

I am a PhD student, can I also follow one of the courses?

Yes, you can follow one or multiple courses via non-degree education ('contract onderwijs', see <https://students.uu.nl/en/fss/non-degree-courses>). For non-degree education, there is a fixed price of 725 Euro per course. To enroll, you need to contact STIP (see <https://students.uu.nl/en/fss/student-information-point-stip> and you need approval of the course coordinator (see the ADS minor website).
