

Dear student,

Welcome to the Faculty of Social and Behavioural Sciences!

It is almost time to start with your Master's programme at Utrecht University. In this email we would like to remind and inform you about important information before the start of your programme.

Website Faculty Introduction: <https://students.uu.nl/en/fss/faculty-introduction>

To prepare yourself for the start of your programme, please visit the website of the Faculty Introduction. Here you can find information about ICT, schedules, answers to frequently asked questions, etc. At the end of this week or the beginning of next week you will also find the programmes of your introduction here.

Also take a look at the student website of your study program: www.students.uu.nl -> [name of your study program]. There is already a lot of information about the courses and your study program here.

On this page you will find all information about education, practical matters and help and facilities in times of the coronavirus: <https://students.uu.nl/en/practical-information/corona-and-education>

Schedule

You are not yet enrolled in your courses in block 1. It will be done in August and then you can find your personal schedule via www.mytimetable.nl. You can see when you have online education and when you have a meeting at the Utrecht Science Park.

Online Education

A part of your introduction and study programme might be held online (some programme's are even completely online), therefore knowledge about the ICT facilities are more important than ever this year. Read the information on our website (<https://students.uu.nl/en/fss/faculty-introduction/online-education>) carefully and make sure you've installed Microsoft Teams before your first online meeting.

In mid-August you will receive another email from us with an update on the faculty introduction programmes (due to the corona situation)

For all students who have never studied at Utrecht University there are several e-modules available in the tool GraspLe. These are: a welcome word from the vice-dean, knowledge clips on ICT matters and a virtual tour of the Uithof/Utrecht Science Park. You will receive an email to login in week 35. Check the website for more information and email us if you didn't receive the email by September 1st (only for students new at Utrecht University).

Studying with a disability

In the appendix of this email you will find information about studying with a disability, if necessary you can make an appointment with a study advisor, the contact details are in the appendix.

If you don't start your studies, please cancel your enrolment request in Studielink.

If you have any questions about your study programme, please contact the Student Information Point (STIP): stip.fsw@uu.nl.

If you have any questions about the Faculty Introduction, please contact us: fi.sbs@uu.nl.

Kind regards,

Erika Nijenhuis
