level	<input checked="" type="checkbox"/> bachelor's <input type="checkbox"/> master's <input type="checkbox"/> PhD
name study programme	Informatiekunde

destination city & country	Tallinn, Estonia
name university abroad	Tallinn University
start date	28 / 08 / 2017
end date	12 / 01 / 2018

#### PREPARATION

##### exchange application process

My exchange period started like everyone else's with the application process. In the application process I visited multiple of the exchange meetings to get information I wanted. Utrecht had some pretty tough deadlines especially the learning plan. I had a lot of trouble fixing this in time, because this information was not yet available from Tallinn University at that time.

##### counselling & support at Utrecht University

The meetings were really helpfull

##### academic preparation

Not applicable

##### language preparation

Not applicable

##### finances

I made a financial plan before leaving to Tallinn. In Tallinn costs of living are a lot lower then in the Netherlands. My rent was 150 a month and all the groceries are a lot cheaper. So for me going to Tallinn was not more expensive then living on my own in the Netherlands, including all the trips and pasttimes activities I did.

#### STUDY ABROAD PERIOD

##### study programme (content and organisational issues)

The study program changed a lott uppon my arrival. A lot of courses were only thought in Estonian, which forced me to change my learning agreement a lot!

##### academic quality of education activities

The level of education in Tallinn is on par with Utrecht University.

##### counselling & support at receiving university abroad

There were a lot of possibilities for counselling at Tallinn University, however I didn't use it that much.

transfer of credits

I recieved the credits quite fast from Tallinn University. However you will only get a pass or fail for most courses.

## STUDENT LIFE

welcome & orientation programme

In the welcome week there are a lot of great parties, and oppertunities to meet new friends. You also get showed around the university. It is a great idea to join ESN Tallinn they ofer a lot of great activities and trips.

accommodation

I lived in the TEKO dorimtory in Tallinn. The location was great, it was 10 min from the university and 20 min from the old town (5 min by free public transport). I shared a room with an other person which was new for me but turned out fine. I really liked living among a lott of other exchange students, it was always a good time in the dormitory. I would recomand TEKO defenitly for 150 a month.

leisure & culture

There are a lot of cool clubs and bars in Tallinn. I would join ESN and lett them show you around. And definitely travel a lot! there a lott of cheap ferries and busses to great destenations close by.

suggestions/tips

Join ESN Tallinn, and visist club Munt every Wednesday.

## CONCLUSIONS

would you recommend this university/destination abroad to others? please explain

I would definily recommend Tallinn university, it was one of the greatest semsters of my live.

do you have any additional advice or comments?
