Annex 2. Transitional Provisions MA Linguistics 2023-2024

General remark

There are no transitional provisions for students who started before 2021-2022. These students should contact the study advisor if they have questions about their study programme.

Students who started in the academic years 2021-2022 or 2022-2023 need to complete the education programme as described in the EER-attachment for their academic year. If certain components of the programme are not offered in the current academic year 2023-2024, the following transitional provisions will apply.

The new compulsory courses are equivalent to the old courses (see below), unless stated otherwise. If a student has completed the old course, the new equivalent course can't be taken as well.

Students who still need to complete one or more electives, should choose from the courses offered in 2023-2024. They should make sure to choose a course that does not have a major overlap with already completed courses. Courses with too much overlap are indicated in the tables below. If two courses are labelled equivalent, only one of them can count toward the student's study programme.

It is possible to make the transition from the exam programme of an earlier cohort to the programme of the current academic year (2023-2024). If the student chooses to do so, they must comply to all regulations of the exam programme of the current academic year and must request approval from the Board of Examiners. Please contact your study advisor if you are considering this.
