1. APPLICATION AND MATCHING BACHELORS DEGREE PROGRAMME

Section 7.31b WHW Rights and obligations for enrolment no later than 1 May

1. If the party concerned has enrolled no later than 1 May for one or more Bachelor's degree programmes in the manner referred to in Section 7.31a, first paragraph, he is entitled to participate in the matching activities to be organised for the Bachelor's degree programmes concerned. The board of the institution may decide that the party concerned is required to participate in the matching activities.
2. In the event that the bridging of the distance between the domicile or residence and the location of the matching activities lead to serious difficulties for the prospective student, the board of the institution will make such provisions as to enable this prospective student to participate in the matching activities without his physical presence being required.
3. The board of the institution will issue a recommendation on the course of studies for each student who has applied and who has participated in the matching activities. A maximum number of recommendations on courses of studies to which the party concerned is entitled can be set by ministerial order.
4. If the second sentence of the first paragraph is applicable and the party concerned does not participate in the matching activities referred to in that paragraph without giving a valid reason, the board of the institution may decide to refuse the enrolment of the party concerned.
5. The board of the institution will lay down further rules for the implementation of the first to the fourth paragraph, which concern in any case:
 - a. the nature and contents of the matching activities for the institution or per degree programme;
 - b. the period within which the matching activities take place;
 - c. the period within which and the manner in which the recommendation on the course of studies will be given;
 - d. the valid reasons for the party concerned being unable to participate in the matching activities;
 - e. the consequences of non-participation in the matching activities without a valid reason for absence; and
 - f. the provisions referred to in the second paragraph.
6. The first to fourth paragraphs are not applicable to enrolment for a Bachelors degree programme for which a selection procedure applies.

A. Application no later than 1 May

An initial registration for a Bachelors degree programme is possible only if applicants have applied for the degree programme in Studielink no later than 1 May 2024 (which is to say, has submitted a request for enrolment in Studielink on or before 1 May 2024). The following exceptions apply:

- a. this obligation to apply on or before 1 May 2024 applies only to one Bachelors degree programme if applicants have applied for more than one Bachelors degree programme. For the second and subsequent degree programmes, applicants must submit an enrolment application no later than 31 July 2024 via Studielink. In addition, applicants are obliged to take part in the matching activities of all degree programmes for which they are applying. For the second and subsequent degree programmes, applicants must register no later than 31 July 2024 for the last round of matching activities for the degree programmes concerned using the online form for this purpose;
- b. this obligation to apply on or before 1 May does not apply to:
 - i. those who have received a negative binding study advice for a higher vocational education (HBO) or university Bachelors degree programme so that application before 1 May was not possible, and
 - ii. those who on 31 July have attained at least 45 credits of a Bachelors degree programme in the 2023-2024 academic year from Utrecht University.

The applicants referred to under i and ii (except the exceptional cases referred to below under 1B, a to c) are obliged to take part in the degree programmes matching activities and to register for them in good time. In order to enable the degree programme to organise the matching, applicants must submit a request for enrolment in Studielink no later than 31 July and submit an application no later than

31 July for the final round of matching activities by means of the digital form for that purpose, in which they may state that they come within a special category.

- c. for a degree programme having a selection under fixed quota, applicants are required to submit an enrolment request via Studielink no later than 15 January 2024.

Applicants who have not applied for the degree programme in time by means of an enrolment request in Studielink will not be admitted to the degree programme and will receive a rejection of their enrolment request from the head of the Central Student Administration (hereinafter: Head of CS a)

B. Required participation in matching activities

Participation in a course of study matching activity is mandatory for those who on 1 May 2024 are registered at a Dutch address in the Persons Database (*Basisregistratie Personen - BRP*).

The obligation for matching does not apply to:

- a. those living outside the Netherlands, i.e. are not registered at a Dutch address in the BRP and who have submitted an application no later than 8 May 2024 for an exemption from participation in the matching activity. The following deadlines apply for submitting a request for exemption from the matching activity;
 - If in accordance with 1A the obligation to submit an application via Studielink no later than 1 May 2024 applies to the applicant, the application for exemption from participation in the matching activity must have been submitted no later than 8 May 2024;
 - If in accordance with 1A (a) of (b) the obligation to submit an application via Studielink no later than 31 July 2024 applies to the applicant, the application for exemption from participation in the matching activity must have been submitted no later than 1 August 2024.

In the above situation, the degree programme will offer the applicant a non-obligatory online form of matching, for which his physical presence is not required.

- b. an application for a degree programme having a selection under fixed quota, unless there is a situation as described in paragraph 3 of the Regulations governing bachelor degree programmes with selection under a fixed quota (*'Reglement selectie voor numerus fixus bacheloropleidingen'*) where the number of applications is lower than or equal to the number of available places: in that case the applicant concerned must participate in the matching activities to be organised by the degree programme. The degree programme will inform the applicants before 1 May 2024 of the dates of the matching activities;
- c. those who have fully participated in all components of the matching activities for the degree programme concerned in the preceding year.

A first registration by applicants who do not come under the exceptions referred to above under a to c is possible only if the records in OSIRIS show that the applicants have completed the matching requirement.

This is the case when the applicants have participated fully in all components of the matching activities for the degree programme and have met all deadlines and obligations in the process. This includes:

1. completing in full the matching form and returning it electronically:
 - o preferably within two weeks, and in any case no later than 15 May 2024 if the enrolment request for the degree programme has been submitted via Studielink no later than 1 May 2024;
 - o preferably within two weeks, and in any case no later than 8 August 2024 if the enrolment request for the degree programme has been submitted via Studielink after 1 May 2024 and no later than 31 July 2024;
2. preparing for the representative study activities;
3. participating fully in the representative study activities which are spread across two sessions;

4. registering their non-attendance as soon as possible, and in any case before the study activities start, if the applicants are unable for reasons beyond their control to participate in the study activities; the director of education for the Bachelors degree programme will decide at the request of the person concerned whether there is a valid reason for non-attendance;
5. completing a test or assignment;
6. participating in the follow-up discussion/feedback.

Decisions and announcements concerning the matching will be sent electronically to the applicants, to the email address entered by the applicants in Studielink.

C. Times for matching

For degree programmes with more than 50 first-year students on reference date 1 October 2023, the matching activities take place twice, namely in April and June.

Study programmes with 50 or fewer first-year students on reference date 1 October 2023 organise matching activities in June.

The matching periods are as follows:

Applicants can register for this final round of matching activities no later than 31 July 2024. Registration must be by means of the appropriate digital form. After this date it will no longer be possible to participate in matching, and therefore to register.

The final round of matching activities is open only to:

D. When and how the recommendation for choice of studies will be issued

The student will receive feedback no later than two weeks after fulfilling the matching requirement that is intended to serve as an aid in making a final college choice.

E. Failure to register on 1 May and participate in compulsory matching

The head of the central student administration (hereinafter: Head of CSa) will reject the application request from:

- those who have not applied in time for the degree programme by means of an enrolment request in Studielink, and
- those for whom participation in the matching is obligatory, but who have not (fully) complied with the deadlines and obligations in the process

The institutional fee in 2021-2022 is €12,751, in 2022-2023 €13.093, in 2023-2024 €13,820 and in 2024-2025 €15,219.

E. Hardship clause

The Director of the Student and Academic Affairs' Office can deviate from the provisions regarding the institutional fee referred to under 4 A, B and D if these provisions would lead to a special case of extreme unfairness.

F. Reduction or exemption

Section 7.48 Reductions, exemptions and repayment of statutory tuition fees

1. In the event that a student as referred to in Section 7.45a is enrolled at an institution for a course and wishes to have a second enrolment at the same or another supported institution, with the exception of the Open University, s/he will be exempted from paying tuition fees for the second enrolment, unless the amount paid or to be paid for the first enrolment is lower than the statutory tuition fees as referred to in Section 7.45(1). In this case, the difference is payable.
2. Students who are liable to pay school fees or course fees by virtue of the School and Course Fees Act [Dutch: *Les- en Cursusgeldwet*] to follow a course funded from the public purse, and who wish for another enrolment instead of or alongside this in the same academic year, and are therefore liable to pay the statutory tuition fees, as referred to in Section 7.45(1), are liable to pay tuition fees for the enrolment on a course at a state-supported institution, with the exception of the Open University, equal to the difference between the amount already paid and the said – higher – tuition fees. If such students are liable to pay tuition fees that are lower than the amount already paid, they will be exempted from paying tuition fees.
3. If enrolment takes place during the academic year, students are liable to pay only part of the statutory tuition fees payable. In this case, the amount payable will be charged pro rata in accordance with the number of months of the academic year remaining.
4. Students may claim repayment of one twelfth of the statutory tuition fees payable for every month the academic year continues following termination of their enrolment, unless a payment arrangement as referred to in Section 7.47(b), has been entered into. In the event that a student dies during the academic year, one twelfth part of the statutory tuition fees paid will be repaid for each subsequent month of the academic year following his decease. Upon termination of enrolment with effect from July or August, students may not claim termination of the payment of the instalments, as referred to in Section 7.47(b), or repayment of the tuition fees paid for these months unless the Board of the institution has arranged otherwise. This paragraph does not apply to the Open University.
5. Reductions or exemptions from payment of the statutory tuition fees in cases other than those referred to in the first through fourth paragraphs will be considered inappropriate expenditure of the state's contribution, as referred to in Section 2.9(1).
6. The Board of the Open University will adopt regulations in which a facility is made available in the form of a reduction of the OU tuition fees for students as referred to in Section 7.45c(1), for whom the means test income, referred to in Section 8, first through fourth paragraphs of the General Income-Dependent Schemes Act [Dutch: *Algemene wet inkomensafhankelijke regelingen*], is less than 110% of the taxable minimum wage. In these regulations, the board of the institution will stipulate what documents must accompany the application. The level of the reduction, referred to in the first sentence, will in any event depend on the income of the party concerned.
7. Students who may claim to pay the statutory tuition fees, as referred to in Section 7.45a(2), will not be exempted from paying tuition fees as referred to in Sections 7.45, 7.45a, 7.45b and 7.46.

Statutory tuition fees

In determining tuition fees on an individual basis, the Head of CSa will apply a reduction or exemption from payment of tuition fees for students who are required to pay the statutory tuition fees if:

- a. the enrolment takes place on or after 1 October: the tuition fees will be reduced in proportion to the number of months;
- b. the enrollee is enrolled for another degree programme during the same period at the university or at a higher education institution and has paid the statutory tuition fees there: the tuition fees will be reduced by the amount already paid, except in the situation referred to in Section 7.48(7) WHW.

Institutional tuition fees

In determining individual institutional tuition fees for students who do not fulfil the requirements referred to in 4A a 1 to 4, the Head of CSa will apply a reduction in or exemption from the tuition fees only in the following cases:

- a. enrolment takes place on or after 1 October: the tuition fees will be reduced in proportion to the number of months;
- b. a tuition fee waiver has been granted to the enrolee: the tuition fees will be reduced by the waiver granted.
- c. the enrolee is enrolled for the same period at Utrecht University for another course: the tuition fees will be reduced by the amount already paid.

G. Collection

The tuition fees will be paid to the university by an irrevocable authorisation for Utrecht University to collect the tuition fees payable, as a lump sum or in five equal instalments. In the case of collection in instalments, the first instalment will be increased by €24 in administration charges.

The Head of CSa may rule that the tuition fees must be paid by transfer to an account number to be specified by the Head of CSa.

Non-EU/EEA students enrolling with Utrecht University for the first time in 2024-2025 and for whom Utrecht University guarantees the residence permit, must have paid the tuition fees as a lump sum through transfer to the account number specified by the Head of CSa prior to the commencement of the enrolment, unless the team International Student Admissions of the Academic Affairs' Office declares that the student will receive a grant. In that case, the tuition fees must be paid in a manner to be determined by the Head of CSa.

H. Consequences of late or non-payment of tuition fees

1. In the event that an authorisation for a direct debit is issued for the payment of tuition fees and it proves impossible to collect an instalment thereof, the Head of CSa will set a term in the event of late payment, within which the instalment due must have been paid.
2. In the event that the amount payable is not paid within the period stipulated, the student will be barred from using the university's ICT and other facilities with immediate effect, having first been informed of this.
3. In the event that an instalment cannot be collected, and the student has not paid this in another manner, following a reminder, the remainder of the tuition fees becomes payable as a lump sum. Collection of the remaining tuition fees will take place by a debt collection agency.
4. Collection costs are at the student's expense.
5. Payments will be allocated to the claim for tuition fees that has been outstanding the longest.
6. In the event that in any one academic year three instalments could not be collected, or in the event that in any one academic year the (outstanding) tuition fees have to be collected by a collection agency, the tuition fees may not be paid in instalments in a subsequent academic year. In such cases, the tuition fees payable for a subsequent academic year must be paid as a lump sum by transfer to the bank account specified by the Head of CSa prior to the commencement date of the enrolment. The Head of CSa will inform the student of this.
7. In the event that, at the end of an academic year (31 August), the tuition fees or part thereof have not been paid, enrolment for a subsequent academic year may not take place until the outstanding amount of tuition fees has been paid and the tuition fees for the academic year for which the student wishes to enrol have been paid as a lump sum.
8. In the event that there is an outstanding amount of tuition fees that has not been paid, the student will not be issued with a certificate for the examination passed by the student.
9. In the event that the outstanding amount cannot be collected by the collection agency, the Head of CSa will terminate the student's enrolment with effect from the second month following the month in which the reminder referred to under 1 was sent by the Head of CSa.

I. Restitution

In the event that the enrolment is terminated prematurely commencing in the months from October 2024 to June 2025 by virtue of the stipulations of these Regulations under 2B, the Head of CSa will ensure that, for every month remaining in the academic year in question, one twelfth of the tuition fees paid is repaid, unless the student in question is still enrolled for one or more degree programmes.

In the case of termination of enrolment as from July or August 2025, no restitution of tuition fees will take place.

In the event that, alongside the enrolment at UU, there is a second enrolment with another higher education institution, restitution of part of the tuition fees will only take place in the case of EEA, Swiss and Surinamese students if the statement of tuition fees paid (for the second enrolment) is submitted, or a proof of termination of enrolment is submitted to the Head of CSa.

In the event of the death of the student, the Head of CSa (following receipt of a copy of the letter of condolence from the Executive Board to the surviving relatives) will ensure that, for each month remaining in the academic year in question following the student's death, one twelfth of the tuition fees paid is returned to the account from which the tuition fees were collected.

J. Collection and Repayment University College Roosevelt

Contrary to that stipulated in these Regulations, University College Roosevelt will set, collect and repay tuition fees for its students.

K. Tuition fees set to zero for a combined degree programme or programme

Tuition fees will be zero for students who have enrolled for a combined degree programme/programme with a university abroad and who have paid tuition fees to that university abroad, if the Executive Board has decided in response to a request from the dean that this is permitted. The dean will ensure that the Head of CSa receives a list of applicants for whom the tuition fees will be zero. A condition for setting tuition fees to zero is that the student has remained enrolled at Utrecht University for the entire duration of the degree programme.

L. Exemption from tuition fees in connection with a management position

On the grounds of Article 7.47a WHW, the Head of CSa will exempt students appointed by the Director of the Student and Academic Affairs' Office to a management position once only from paying statutory tuition fees, once only for a period of one academic year.

5. PRE-MASTER: FEES AND ENROLMENT

Section 7.57i. Support to facilitate good progression from higher professional education to a Masters degree programme in university education

1. The education and examination rules of the universities of applied sciences and universities concerned and the Open University determine the way in which those who have passed the final examination for a particular Bachelors degree programme in higher professional education may be offered support by the Board of the institution to facilitate good progression to a related Masters degree programme in university education.
2. The Board of the Institution may ask for a fee for offering the support as referred to in the first paragraph.
3. The fee referred to in the second paragraph for supporting a study load of 60 credits or more will be a maximum of the full statutory tuition fees as referred to in Section 7.45(1) or, in the case of progression to a Master's degree programme with the Open University, a maximum of the OU tuition fees referred to in Section 7.45b(1).
4. The fee referred to in the second paragraph for supporting a study load of fewer than 60 credits will be a maximum of a proportional part of the statutory tuition fees as referred to in Section 7.45(1) or, in the case of progression to a Master's degree programme with the Open University, a maximum of a proportional part of the OU tuition fees referred to in Section 7.45b(1).
5. Section 7.4 (1) and (2) is applicable by analogy to the calculation of the study load of the support.
6. A student who makes use of the support while he is studying a course for which he is required to pay statutory tuition fees as referred to in Section 7.45(1) or OU tuition fees as referred to in Section 7.45b(1) will be exempted from paying a fee for the support.
7. A student who makes use of the support and, contrary to Section 7.32(3), is enrolled on a course only with that in mind, will pay instead of tuition fees a fee for the support during the period that he receives support.

- there will be no exemption or reduction of tuition fees for a second registration for a programme or pre-master course of study;
- in case of early termination of enrolment, only a refund will be given of a proportional part of the pre-master fees paid, if;
 - o the student is excluded by the Board of Studies of the Graduate School from further participation in the pre-master course due to insufficient progress in the pre-master course;
 - o the student dean has established that due to circumstances beyond the student's control/personal circumstances the student cannot participate in the degree programme/the examinations of the pre-master course.
- if the pre-master student outside the pre-master programme is taking a different programme in higher education for the same period, the Head of CSa can apply the institutional fee to students who have already earned a degree;

- the pre-master student who is registered at the same time for a different programme in higher education and has paid statutory tuition fees for it, is exempted from paying the fee for the pre-master;

The pre-master fee for the pre-master course of study will be paid in the first academic year by the pre-master student; the pre-master student who has paid (or is exempt from) the fees due for the pre-master course will, when applying for the programme concerned in a subsequent academic year, be exempted from paying the fee again. Contrary to that provided for in the previous sentence, the pre-master student will pay the pre-master fee in two academic years if the pre-master is being provided part-time over two academic years. The Head of CSa will establish on the basis of the information registered in OSIRIS concerning the study load of the part-time pre-master in the academic year concerned what pre-master rate the student will owe for that academic year.

Commencement date for enrolling for a pre-master programme

Contrary to the provisions of 3A in these regulations, the student will be enrolled for a pre-master programme commencing on the starting date of the pre-master programme as stated on the provisional admission decision for the Master's degree programme if:

- the enrolment application submitted via Studielink has been received by the Head of CSa no later than before the starting date of the pre-master course, and

- for a second enrolment in a degree programme, there is no exemption or reduction in tuition fees;
- in case of premature termination of the enrolment, a refund of a proportional part of the paid contribution is only possible if the student counsellor has determined that the student cannot participate in the education module as a result of force majeure/personal circumstances.
- the student who registers for the educational module, who is following another degree programme of higher education for the same period and has paid statutory tuition fees for it, is exempted from paying the fee for the educational module;

The fee due for the educational module shall be paid by the student in the first academic year; the student who has paid the fee due for the educational module (c.q. has been exempted from it) shall not owe the fee again when registering for the module in a subsequent academic year.

7. EXTRANEUS

It is not possible to enrol as an extraneus as this is prevented by the nature and importance of the education at Utrecht University. Contrary to this, it is possible to enrol as an extraneus for those degree programmes for which the Executive Board has determined that this is permitted in response to a request from the dean. The dean will ensure that the Head of CSa receives an overview of the enrolees who wish to be enrolled as extraneus for the degree programme concerned. Enrolment will not proceed until the relevant examination fees have been paid. Extranei are required to pay an examination fee of € 500 for each academic year that they are enrolled for a degree programme. Examination fees are not subject to any exemption, reduction or refund.

8. UNLAWFUL USE OF EDUCATIONAL OR EXAMINATION FACILITIES

Those who make use of educational or examination facilities without being enrolled will forfeit, due to unlawful use of these facilities, for each month in which unlawful use was made of these facilities, a penalty amounting to the sum that they would have owed in tuition fees in that period. This sum will be increased by € 200 in administration fees. Persons may only pass the examination and receive the certificate after the penalty has been paid. The Head of CSa will, having received the outstanding tuition fees for the academic year in question, and the administration fees of € 200, issue a statement of no objection in relation to the passing of the examination and the issue of the certificate.

9. HIGHER EDUCATION DATABASE (REGISTER ONDERWIJSDEELNEMERS - ROD)

The Head of CSa will exercise the Executive Board's authority in relation to the provision of information to the ROD and the extraction of information from the ROD (Section 7.52 WHW).

10. ELECTRONIC COMMUNICATION

Decisions and announcements concerning enrolment and tuition fees as referred to in these regulations will be sent to the enrollee electronically via Studielink or to the email address that the enrollee has recorded in Studielink.

11. ONLINE PROOF OF ENROLMENT

The student who has enrolled will be provided with proof of registration by means of an online student card in the MyUU app. The student can login to the app using his Solis ID. A written statement of enrolment can be printed out through OSIRIS.

Following receipt of the documentary evidence the Head of CSa will issue a certificate of no objection for the Board of Examiners concerning the issue of the replacement certificate.
