

La Trobe University subject selection guide for Incoming Exchange and Study Abroad programs

Full time study requirement

The standard full-time study load for undergraduate students at La Trobe is 60 credit points per semester. Most subjects at La Trobe are worth 15 LTU credit points.

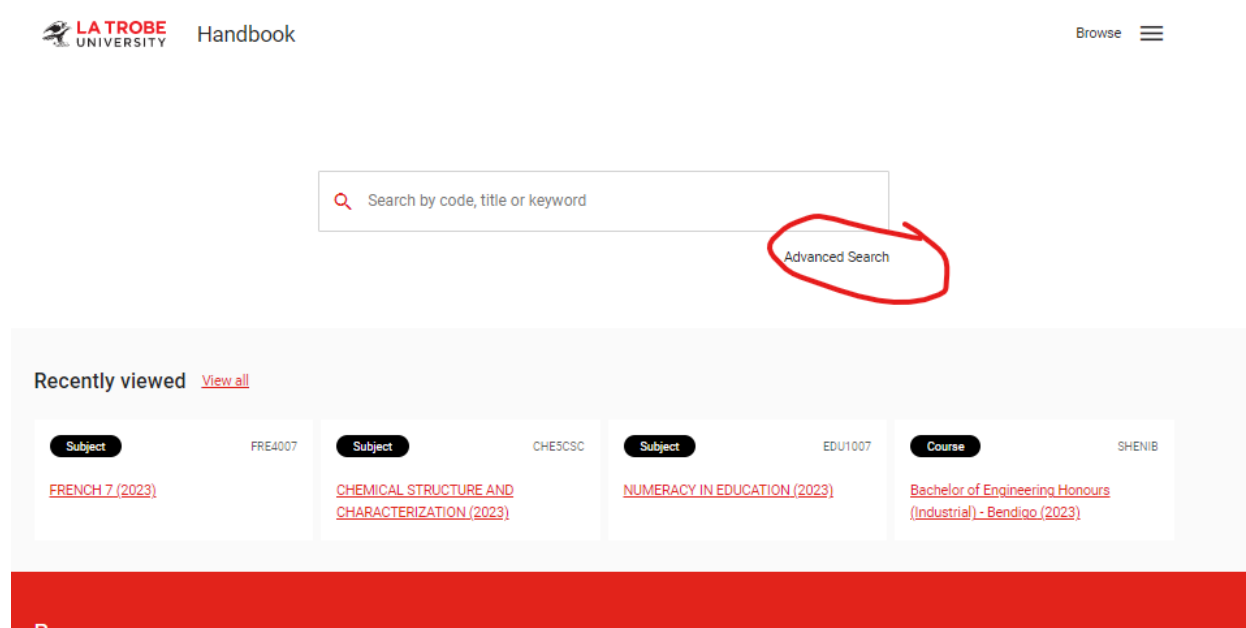

It is recommended that you list at least 8 subjects on your application to La Trobe so that there is flexibility with assessment, approval and enrolment.

How do I choose which subjects to study?

The subjects you can choose will depend on what your home university will approve – we recommend speaking with your course coordinator for assistance.

You can find your subjects by searching for your course in the [University Handbook](#).

You can search by keywords, campus, year level, semester, or discipline. You can also search for subjects without pre-requisites.

When you select a subject that interests you, make sure that there is nothing stopping you from selecting the subject:

- Ensure the subject is available to study abroad/exchange students.
- Ensure to use the 'Instances' tab to make sure the subject is available in the study period you require (e.g: Semester 1 = Feb-June),
- Ensure the subject is being offered at the campus you have applied to study (for example, Melbourne (Bundoora)).
- Ensure that you meet the Pre requisites of each subject.

Please note that Exchange and Study Abroad students can only study at the Melbourne (Bundoora) or Bendigo campuses.

Please see example below for [Introduction to Aboriginal Australia](#):

INTRODUCTION TO ABORIGINAL AUSTRALIA

The screenshot shows the subject page for 'Introduction to Aboriginal Australia' (ABS1IAA) with 15 credit points. The page is for the 2022 version. On the left sidebar, 'Requisite rules' is circled in blue. The main content area has an 'Overview' section with a description of the subject's alignment with the Sustainability Thinking Essential. Below this is a table with two columns: 'College' and 'School'. The 'College' column lists 'Arts, Social Sciences & Commerce' and 'Subject coordinator Julie Andrews'. The 'School' column lists 'Humanities and Social Sciences' and 'Subject type Undergraduate'. Other fields include 'Year level Year Level 1 - UG', 'AQF level Level 5 - Diploma', 'Available as elective Yes', 'Available to study abroad Yes' (circled in blue), 'Capstone subject No', and 'Academic progress review No'. On the right, an 'Instances' dropdown menu is open, showing a list of subject instances. The first instance, 'Melbourne (Bundoora) - Semester 1 - Blended', is circled in blue.

College	School
<input checked="" type="checkbox"/> Arts, Social Sciences & Commerce	<input checked="" type="checkbox"/> Humanities and Social Sciences
Subject coordinator Julie Andrews	Subject type Undergraduate
Year level Year Level 1 - UG	AQF level Level 5 - Diploma
Available as elective Yes	Available to study abroad Yes
Capstone subject No	Academic progress review No

Things to consider

We recommend that students list about 8 subjects on their application so that there is more flexibility when it comes time to enrol, just in case there are any timetable clashes etc.

Please ensure that you choose subjects relevant to the semester you wish to study with us.

Most of our subjects are offered over a semester period:

LTU Semester 1 = February to June

LTU Semester 2 = July to November

Please see the link below for campus details: <http://www.latrobe.edu.au/campuses>

*Codes that contain "1, 2 or 3" are for Undergraduate students and those that contain either a "4" or "5" are for postgraduate students (e.g. ABC4ABC). It is strongly recommended that if you are enrolled into an undergraduate program at your home Uni only pick from subjects with code 1, 2, 3.

Students are asked to make sure to check if the subject has pre-requisites (please see image above where to check this). If so, you will need to provide proof that you have met these with your application.

Once you have found at least 8 subjects* that will be approved by your Home institution, record the Subject code and subject name to add to your Exchange/Study abroad application on Studylink.

*You need to select more subjects than you are required to study – in case of unforeseen unavailability.
