

Dear student,

it is almost time to start your Master's programme. Therefore, today we send you information on our digital learning systems.

During your studies you will have to use several IT systems. This will start from the first day so it's good to prepare before the start of your Master! We have made an online ICT training for you.

You can find the ICT training in Grasple, please use this link:

https://app.grasple.com/#/course/10708?access_token=kzeblrAEPzA8qXLkmGCppgnMtc9gaXPD

You can log in with your [solis-id](#). We expect you have watched the ICT training before the start of the introduction. If you have any ICT-related questions left, please email icto.fsw@uu.nl. Or you can contact Oscar Buma on Friday 6th of September via Microsoft Teams (o.buma@uu.nl).

You will receive a final email from us again no later than 30th of August. In this email you will hear where and when you are expected to start your introduction.

If you no longer plan to start your studies, please cancel your application request via Studielink.

We wish you a good start of your studies!

Kind regards,
Study Information Point and Introduction Team
