

Changes and additions Geosciences Master's EER 2022-2023:

Changed regulation

Appendix 1 Programme specific component Environmental Sciences

Due to the ruling by the Dean, 11 July 2023, students of the 2022 cohort of the Master's programme Sustainable Development will have a choice between 30 EC and 45 EC thesis instead of having to take an obligatory 45 EC thesis.

Additional regulation

Appendix 1 Programme specific component Environmental Sciences

The transitional arrangement is valid until the end of the academic year 2027-2028. Any students from cohort 2022 that have not completed their thesis by then, will need to write a 45 EC thesis. Individual advice will be provided by that time.
