

## Changes and additions Geosciences Master's EER 2021-2022:

### Changed regulation

-

### Additional regulation

#### Article 2.1a – Admission and conditional enrollment due to Covid 19

1. Contrary to the provisions of Paragraph 2.1 the Board of Admissions may decide to admit to the two year Master's degree programme applicants starting 1 September 2021 who meet the following conditions:
  - a. The candidate bachelor's examination programme is lacking no more than 15 credits;
  - b. The candidate submits an application form that is provided for that purpose by 16 August 2021 at the latest in which:
    - it is indicated which Bachelor's components the candidate was unable to complete after 1 February 2020;
    - it is indicated that this delay is linked to the government measures related to COVID-19;
    - a study plan is included in which it is indicated how the candidate will combine the missing Bachelor's components with attending the Master's degree programme.
  - c. The applicant belongs to one of the following groups:
    - students enrolled for a Bachelor's degree programme at the UU;
    - students enrolled for a Bachelor's degree programme at another Dutch university (or university of applied sciences if an hbo Bachelor's degree gives access to the Master's degree);
    - students enrolled for a Bachelor's degree programme at a university in an EEA country;
    - students enrolled for a Bachelor's degree programme at a university outside an EEA country with a residence status or awaiting a final decision on their application.
2. The Board of Admissions assesses:
  - whether the conditions set out in the first paragraph have been met, and
  - whether, in the opinion of the Board of Admissions, the applicants studyplan has a reasonable study load.

Applicants who meet both conditions receive a letter of acceptance to the Master's degree programme.
3. Applicants who have been admitted on the basis of the first and second paragraph must pass the Bachelor's examination by 1 September 2022 at the latest. If the Bachelor's degree is not awarded before this date, re-enrolment for the Master's degree programme in the 2022-2023 academic year is not allowed.
4. Applicants admitted on the basis of the first and second paragraph are not allowed to start with the Master's final thesis if the bachelor's final thesis has not yet been completed.
5. Decisions relating to admission based on this article refer to the possibility of appeal to the Examination Appeals Board.
