

How to enrol for a course

You must register for the course in Osiris Student.

Click (<https://uu.nl/osirisstudent>) to go to Osiris Student. Log in using your Solis-id and password.

Osiris is secured by tw0-factor-authentication, this means you have to log in with an extra verification code. More information can be found in this manual: [Two-factor authentication: FAQ](#).

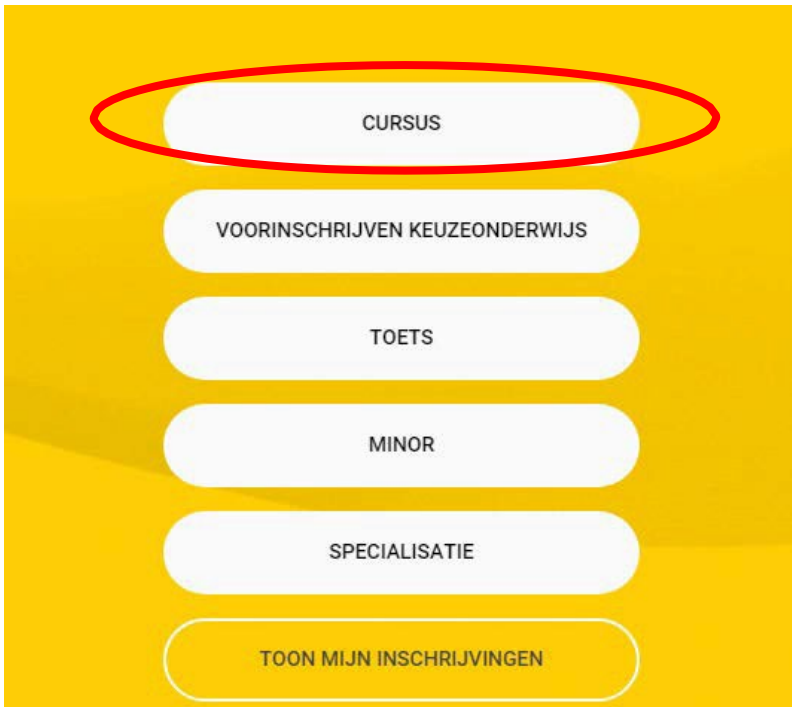

When you are logged in, select the menu with the button in the top left and go to “Enrol”.

You will see the following options:

- Course (Dutch: Cursus)
- Pre-enrolment elective education (Dutch: Voorinschrijven keuzeonderwijs)
- Test (Dutch: Toets)
- Minor
- Specialisation (Dutch: Specialisatie)

Choose 'Course' / 'Cursus'

You will now see a window where you can search for courses. Not all courses will be open for enrolment. Courses that are open for enrolment will have a yellow dot and arrow in front of them.

Set your filter settings in the bar on the left. Be sure to select 'Only open for course enrolment' (Dutch: 'Alleen open voor cursusinschrijving') and the Faculty of social sciences.

Punten: 5 ECTS
Categorie: Master
Cursustype: Cursorisch onderwijs
Voertaal: Engels
Opmerking (cursus): Bachelorstudenten kunnen zich niet inschrijven voor dit masteronderdeel.

Click on the course you want to enrol in to get to the next window. Here you select your group or course module preference. Choose the group number that best fits with your schedule.

Click on 'Edit' (Dutch: 'Wijzigen') to return to the course overview.

You may receive notification that the course module (or the small-group session) is already full. If so, choose another course module / group session and make sure that there is no overlap! If you still choose a course or small-group session that has overlap with your other courses, you cannot take those classes! There is no check or adaption of these overlaps by STIP.

After choosing your group number, click on the arrow in the yellow dot (→) to go to the confirmation page.

Click the yellow 'Confirm enrolment' button (Dutch: 'Bevestig inschrijving') to confirm.
