

LERU STudent REseArch Mobility Programme (STREAM)
Project proposal

Host University:
Università degli studi di Milano

Field:
Chemistry

Specified field, subject:
Molecular biology, biochemistry

Research project title:
PJS (Jonic-Salentino Project)

Possible starting month(s):

Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug
				x							

Possible duration in months:

1	2	3	4	5	6
					x

Suitable for students in: 1st and 2nd cycle (Bachelor and Master students)

Prerequisites: Background in analytical chemistry

Restrictions: none

Description:

The aim of the project is to assess exposure to environmental pollutants (benzene and polycyclic aromatic hydrocarbons) in children living near industrial sites in Apulia, Italy

Faculty or Department Department of Clinical Sciences and Community Health, University of Milan, Italy
